During the coming year we intend to deliver outreach camps to the communities where we have established partnerships. Some of the First Nations communities and African Nova Scotian communities that we work with have been our partners for over 10 years. We plan to expand our on-campus camps to provide more camp streams, as well as a pilot for a new camp for preschoolers aged 3-5. SuperNOVA plans to engage more schools and classrooms for workshops, increasing the reach of our programming.
