Winter Research Mixer – Halifax Club

Who is ESANS

ESANS represents over 130 companies and agencies working in waste resources, laboratories, ocean habitat mapping, indoor air quality, planning, monitoring, construction, contaminated sites, and supporting oil and gas, mines, municipalities, drinking water, farming, fisheries, and electrical power generation – in other words, everything important

Winter Research Mixer – Halifax Club

Covering the Maritimes

ESANS now has Board members from New Brunswick and Prince Edward Island and we are gradually moving to become the Maritimes Environmental Services Association. If you aren't signed up for our monthly newsletter, please go to our webpage at esans.ca and sign up so you can keep abreast of the changes. Don't forget our lunch 'n learn of unconventional gas development on March 26!!
